

**AEON CO. (M) BHD.**

**(Company No. 198401014307 [126926-H])**

## **Energy Policy**

### **1. Policy Statement**

AEON CO. (M) BHD. ("AEON" or the "Company") is committed to the continual improvement of its energy performance across all outlets, facilities, and offices. The company will comply with all applicable laws and regulations related to energy use and support efforts to reduce energy consumption and environmental impact.

The Company will undertake its duty to provide the framework, resources, and information necessary to set and achieve energy objectives, ensuring the active participation and awareness of all our employees and stakeholders.

### **2. Objectives**

AEON will implement this policy through the following objectives:

- (a) To establish, implement, and maintain this energy policy, and ensure it is communicated, understood, and available to all personnel working for or on our behalf.
- (b) To provide the necessary awareness, training, and resources to empower our employees to contribute actively to our energy performance goals.
- (c) To comply with and continually review all legal and other requirements related to energy use, consumption and efficiency.
- (d) To integrate considerations for energy performance improvement and operational control into the design of new, modified, or renovated facilities, equipment, systems, and processes.
- (e) To promote the procurement of energy-efficient equipment and services that support our energy management goals.
- (f) To reduce operational costs by systematically improving energy efficiency and reducing energy consumption.
- (g) To attain the highest practical standards in energy management at all AEON outlets.
- (h) To continuously cooperate and work closely with relevant parties to provide support for improving energy performance and the energy management system.

In conducting its business activities, AEON's employees and others involved are expected to strive to:

- (a) Prevent the wasteful use of energy.
- (b) Identify and report opportunities for improving energy performance.
- (c) Actively participate in achieving the company's energy objectives and targets.

### **3. Goals**

AEON is certain that efficient energy management must be an integral part of our daily operations. The systematic management of energy will be a key factor in achieving our environmental and financial missions, ensuring a sustainable future for our business and community.
