

## IFRS S1 CONTENT INDEX

IFRS S1 Indicator	Description	Page No.
<b>GOVERNANCE</b>		
27(a)(i)	How responsibilities for sustainability-related risks and opportunities are reflected in the terms of reference, mandates, role descriptions and other related policies applicable to that body(s) or individual(s).	60, 138-139
27(a)(ii)	How the body(s) or individual(s) determined whether appropriate skills and competencies will be developed to oversee strategies designed to respond to sustainability-related risks and opportunities.	138-139, 141-142
27(a)(iii)	How and how often the body(s) or individual(s) is informed about sustainability-related risks and opportunities.	60, 138-139, 144
27(a)(iv)	How the body(s) or individual(s) takes into account sustainability-related risks and opportunities when overseeing the entity's strategy, its decisions on major transactions and its risk management processes and related policies, including whether the body(s) or individual(s) has considered trade-offs associated with those risks and opportunities.	60-63, 138-139, 143-144
27(a)(v)	How the body(s) or individual(s) oversees the setting of targets related to sustainability-related risks and opportunities and monitors progress towards those targets, including whether and how related performance metrics are included in remuneration policies.	60-63, 138-139
27(b)(i)	Whether the role is delegated to a specific management-level position or management-level committee and how oversight is exercised over that position or committee.	138-139
27(b)(ii)	Whether management uses controls and procedures to support the oversight of sustainability-related risks and opportunities and, if so, how these controls and procedures are integrated with other internal functions.	138-139
<b>STRATEGY</b>		
30(a)	Sustainability-related risks and opportunities that could reasonably be expected to affect the entity's prospects	61-63
30(b)	The time horizons-short, medium or long term-over which the effects of each of those sustainability-related risks and opportunities could reasonably be expected to occur	61-63
30(c)	The definitions of 'short term', 'medium term' and 'long term' and how these definitions are linked to the planning horizons used by the entity for strategic decision-making	56

32(a)	A description of the current and anticipated effects of sustainability-related risks and opportunities on the entity's business model and value chain	61-63
32(b)	A description of where in the entity's business model and value chain sustainability-related risks and opportunities are concentrated (for example, geographical areas, facilities and types of assets).	61-63
33(a)	How the entity has responded to and plans to respond to, sustainability related risks and opportunities in its strategy and decision-making	61-63
33(b)	The progress against plans the entity has disclosed in previous reporting periods, including quantitative and qualitative information.	65-67
33(c)	Trade-offs between sustainability-related risks and opportunities that the entity considered (for example, in making a decision on the location of new operations, an entity might have considered the environmental impacts of those operations and the employment opportunities they would create in a community).	61-63
34(a)	The effects of sustainability-related risks and opportunities on the entity's financial position, financial performance and cash flows for the reporting period (current financial effects).	61-63
34(b)	The anticipated effects of sustainability-related risks and opportunities on the entity's financial position, financial performance and cash flows over the short, medium and long term, taking into consideration how sustainability-related risks and opportunities are included in the entity's financial planning (anticipated financial effects).	61-63
35(a)	Quantitative and qualitative information about how sustainability related risks and opportunities have affected its financial position, financial performance and cash flows for the reporting period.	61-63
35(c)(i)	Its investment and disposal plans (for example, plans for capital expenditure, major acquisitions and divestments, joint ventures, business transformation, innovation, new business areas and asset retirements), including plans the entity is not contractually committed to.	61-63
35(d)	Quantitative and qualitative information about how the entity expects its financial performance and cash flows to change over the short, medium and long term, given its strategy to manage sustainability related risks and opportunities.	61-63
<b>RISK MANAGEMENT</b>		
41	A qualitative and, if applicable, quantitative assessment of the resilience of its strategy and business model in relation to its sustainability-related risks, including information about how the assessment was carried out and its time horizon.	61-63

44(a)(i)	The processes and related policies the entity uses to identify, assess, prioritise and monitor sustainability-related risks, including information about the inputs and parameters the entity uses (for example, information about data sources and the scope of operations covered in the processes)	61-63
44(a)(ii)	Whether and how the entity uses scenario analysis to inform its identification of sustainability-related risks	61-63
44(a)(iii)	How the entity assesses the nature, likelihood and magnitude of the effects of those risks (for example, whether the entity considers qualitative factors, quantitative thresholds or other criteria)	61-63
44(a)(iv)	Whether and how the entity prioritises sustainability-related risks relative to other types of risk	63
44(a)(v)	How the entity monitors sustainability-related risks.	63
44(a)(vi)	Whether and how the entity has changed the processes it used compared with the previous reporting period.	61-63
44(b)	The processes the entity uses to identify, assess, prioritise and monitor sustainability-related opportunities.	61-63
44(c)	The extent to which and how the processes for identifying, assessing and prioritising and monitoring sustainability-related risks and opportunities are integrated into and inform the entity's overall risk management process.	63, 138-139
<b>METRICS &amp; TARGETS</b>		
46(c)	Metrics required by an applicable IFRS Sustainability Disclosure Standard for each sustainability-related risk and opportunity that could reasonably be expected to affect the entity's prospects.	61-62, 64
46(b)	Metrics the entity uses to measure and monitor that sustainability related risk or opportunity and its performance in relation to that sustainability-related risk or opportunity, including progress towards any targets the entity has set and any targets it is required to meet by law or regulation.	64, 66, 89-93
50(a)	How the metric is defined, including whether it is derived by adjusting a metric taken from a source other than IFRS Sustainability Disclosure Standards and, if so, which source and how the metric disclosed by the entity differs from the metric specified in that source.	64-66
50(b)	Whether the metric is an absolute measure, a measure expressed in relation to another metric or a qualitative measure (such as red, amber, green – or RAG – status).	64-66
50(c)	Whether the metric is validated by a third party and, if so, which party.	64, 240-245
51(a)	The metric used to set the target and monitor progress towards reaching the target.	64, 66, 89-93
51(b)	The specific quantitative or qualitative target the entity has set or is required to meet.	66, 89

51(c)	The period over which the target applies.	66, 89
51(d)	The base period from which progress is measured.	66, 89
51(e)	Any milestones and interim targets.	66, 89
51(f)	Performance against each target and an analysis of trends or changes in the entity's performance	89-93

## IFRS S2 CONTENT INDEX

IFRS S2 Indicator	Description	Page No.
<b>GOVERNANCE</b>		
6(a)(i)	How responsibilities for climate-related risks and opportunities are reflected in the terms of reference, mandates, role descriptions and other related policies applicable to that body(s) or individual(s)	60-61, 77, 138-139
6(a)(ii)	How the body(s) or individual(s) determines whether appropriate skills and competencies are available or will be developed to oversee strategies designed to respond to climate-related risks and opportunities	138-139, 141-142
6(a)(iii)	How and how often the body(s) or individual(s) is informed about climate-related risks and opportunities;	60, 77, 138-139, 144
6(a)(iv)	How the body(s) or individual(s) takes into account climate-related risks and opportunities when overseeing the entity's strategy, its decisions on major transactions and its risk management processes and related policies, including whether the body(s) or individual(s) has considered trade-offs associated with those risks and opportunities	77-82, 138-139
6(a)(v)	How the body(s) or individual(s) oversees the setting of targets related to climate-related risks and opportunities, and monitors progress towards those targets, including whether and how related performance metrics are included in remuneration policies	60-63, 77, 138-139
6(b)(i)	Management's role in the governance processes, controls and procedures used to monitor, manage and oversee climate-related risks and opportunities, including information about: whether the role is delegated to a specific management-level position or management-level committee and how oversight is exercised over that position or committee	60-63, 77, 138-139
6(b)(ii)	Whether management uses controls and procedures to support the oversight of climate-related risks and opportunities and, if so, how these controls and procedures are integrated with other internal functions.	77-79, 138-139
<b>STRATEGY</b>		
9(a),10(a)	The climate-related risks and opportunities that could reasonably be expected to affect the entity's prospects	79-80
10(b)	For each climate-related risk the entity has identified, whether the entity considers the risk to be a climate-related physical risk or climate-related transition risk	79-80

10(c)	For each climate-related risk and opportunity the entity has identified, over which time horizons—short, medium or long term—the effects of each climate-related risk and opportunity could reasonably be expected to occur	79-80
10(d)	How the entity defines 'short term', 'medium term' and 'long term' and how these definitions are linked to the planning horizons used by the entity for strategic decision-making	56
9(b), 13(a)	The current and anticipated effects of climate-related risks and opportunities on the entity's business model and value chain	79-80
13(b)	Where in the entity's business model and value chain climate-related risks and opportunities are concentrated (e.g. geographical areas, facilities and types of assets)	78
9(c), 14(a)(i)	Current and anticipated changes to the entity's business model, including its resource allocation, to address climate-related risks and opportunities (for example, these changes could include plans to manage or decommission carbon-, energy- or water-intensive operations, resource allocations resulting from demand or supply-chain changes, resource allocations arising from business development through capital expenditure or additional expenditure on research and development, and acquisitions or divestments)	79-81
14(a)(ii)	Current and anticipated direct mitigation and adaptation efforts (e.g. through changes in production processes or equipment, relocation of facilities, workforce adjustments, and changes in product specifications)	81
14(a)(iii)	Current and anticipated indirect mitigation and adaptation efforts (e.g. through working with customers and supply chains)	81
14(a)(iv)	any climate-related transition plan the entity has, including information about key assumptions used in developing its transition plan, and dependencies on which the entity's transition plan relies	81
14(a)(v)	How the entity plans to achieve any climate-related targets, including any greenhouse gas emissions targets, described in accordance with IFRS S2.33–36	81, 83-84
9(c), 14(b)	Disclose information about how the entity is resourcing, and plans to resource, the activities disclosed in accordance with IFRS S2.14(a)	81
9(c), 14(c)	Disclose quantitative and qualitative information about the progress of plans disclosed in previous reporting periods in accordance with IFRS S2.14(a)	83-85
9(d), 15(a)	The effects of climate-related risks and opportunities on the entity's financial position, financial performance and cash flows for the reporting period (current financial effects)	79-80

15(b)	The anticipated effects of climate-related risks and opportunities on the entity's financial position, financial performance and cash flows over the short, medium and long term, taking into consideration how climate-related risks and opportunities are included in the entity's financial planning (anticipated financial effects).	79-80
16(a)	How climate-related risks and opportunities have affected the entity's financial position, financial performance and cash flows for the reporting period	79-80
16(c)	How the entity expects its financial position to change over the short, medium and long term, given its strategy to manage climate-related risks and opportunities, taking into consideration	79-81
16(c)(i)	Its investment and disposal plans (e.g. plans for capital expenditure, major acquisitions and divestments, joint ventures, business transformation, innovation, new business areas, and asset retirements), including plans the entity is not contractually committed to	81
16(d)	How the entity expects its financial performance and cash flows to change over the short, medium and long term, given its strategy to manage climate-related risks and opportunities (e.g. increased revenue from products and services aligned with a lower-carbon economy; costs arising from physical damage to assets from climate events; and expenses associated with climate adaptation or mitigation)	79-80
21(a)	If an entity determines that it need not provide quantitative information about the current or anticipated financial effects of a climate-related risk or opportunity applying the criteria set out in IFRS S2.19–20:  Explain why it has not provided quantitative information	80-81
21(b)	Provide qualitative information about those financial effects, including identifying line items, totals and subtotals within the related financial statements that are likely to be affected, or have been affected, by that climate-related risk or opportunity	79-80
22(a)(i)	The implications, if any, of the entity's assessment for its strategy and business model, including how the entity would need to respond to the effects identified in the climate-related scenario analysis	79-81
22(a)(ii)	The significant areas of uncertainty considered in the entity's assessment of its climate resilience	78, 81
22(a)(iii)(1)	The entity's capacity to adjust or adapt its strategy and business model to climate change over the short, medium and long term, including:  the availability of, and flexibility in, the entity's existing financial resources to respond to the effects identified in the climate-related scenario analysis, including to address climate-related risks and to take advantage of climate-related opportunities	79-81

22(a)(iii)(2)	The entity's ability to redeploy, repurpose, upgrade or decommission existing assets	80-81
22(a)(iii)(3)	The effect of the entity's current and planned investments in climate-related mitigation, adaptation and opportunities for climate resilience	80-81
22(b)(i)(1)	Which climate-related scenarios the entity used for the analysis and the sources of those scenarios	78
22(b)(i)(2)	Whether the analysis included a diverse range of climate-related scenarios	78
22(b)(i)(3)	Whether the climate-related scenarios used for the analysis are associated with climate-related transition risks or climate-related physical risks	78-80
22(b)(i)(4)	Whether the entity used, among its scenarios, a climate-related scenario aligned with the latest international agreement on climate change	78
22(b)(i)(5)	Why the entity decided that its chosen climate-related scenarios are relevant to assessing its resilience to climate-related changes, developments or uncertainties	78
22(b)(i)(6)	The time horizons the entity used in the analysis	56, 78
22(b)(i)(7)	What scope of operations the entity used in the analysis (e.g. the operating locations and business units used in the analysis).	78
22(b)(ii)(1)	Disclose the key assumptions the entity made in the climate-related scenario analysis, including assumptions about:  climate-related policies in the jurisdictions in which the entity operates	78
22(b)(ii)(2)	Macroeconomic trends	78
22(b)(ii)(3)	National- or regional-level variables (e.g. local weather patterns, demographics, land use, infrastructure and availability of natural resources)	78
22(b)(ii)(4)	Energy usage and mix	78
22(b)(ii)(5)	Developments in technology	78
22(b)(iii)	Disclose the reporting period in which the climate-related scenario analysis was carried out (see IFRS S2.B18)	78

<b>RISK MANAGEMENT</b>		
25(a)(i)	<p>Disclose information about the processes and related policies the entity uses to identify, assess, prioritise and monitor climate-related risks, including information about:</p> <p>The inputs and parameters the entity uses (e.g. information about data sources and the scope of operations covered in the processes);</p>	78, 82-83
25(a)(ii)	Whether and how the entity uses climate-related scenario analysis to inform its identification of climate-related risks	78-80
25(a)(iii)	How the entity assesses the nature, likelihood and magnitude of the effects of those risks (e.g. whether the entity considers qualitative factors, quantitative thresholds or other criteria)	79-80
25(a)(iv)	Whether and how the entity prioritises climate-related risks relative to other types of risk	78-79
25(a)(v)	How the entity monitors climate-related risks	82-83
25(b)	Disclose information about the processes the entity uses to identify, assess, prioritise and monitor climate-related opportunities, including information about whether and how the entity uses climate-related scenario analysis to inform its identification of climate-related opportunities	78, 81
25(c)	Disclose information about the extent to which, and how, the processes for identifying, assessing, prioritising and monitoring climate-related risks and opportunities are integrated into and inform the entity's overall risk management process	60, 77, 78-79
<b>METRICS &amp; TARGETS</b>		
29(a)(i)	<p>Disclose absolute gross greenhouse gas emissions generated during the reporting period, expressed as metric tonnes of CO2 equivalent (see IFRS S2.B19–B22), classified as:</p> <p>(1) Scope 1 greenhouse gas emissions;  (2) Scope 2 greenhouse gas emissions; and  (3) Scope 3 greenhouse gas emissions</p>	85
29(a)(iii)(1)	The measurement approach, inputs and assumptions the entity uses to measure its greenhouse gas emissions	82-83
29(a)(iii)(2)	The reason why the entity has chosen the measurement approach, inputs and assumptions it uses to measure its greenhouse gas emissions	82-83

29(a)(iii)(3)	Any changes the entity made to the measurement approach, inputs and assumptions during the reporting period and the reasons for those changes	82
B26(a), B27(a)	Disclose information about the measurement approach the entity uses in accordance with the Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard (2004), including:  The approach it uses to determine its greenhouse gas emissions (e.g. the equity share or control approach in the Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard (2004))	82-83
B27(b)	The reason, or reasons, for the entity's choice of measurement approach and how that approach relates to the disclosure objective in IFRS S2.27	82
B26(c), B29	As part of an entity's disclosure of the measurement approach, inputs and assumptions, it discloses information to enable users of general purpose financial reports to understand which emission factors the entity uses in measuring its greenhouse gas emissions	82
29(a)(v)	For Scope 2 greenhouse gas emissions, disclose location-based Scope 2 greenhouse gas emissions, and provide information about any contractual instruments that is necessary to inform users' understanding of the entity's Scope 2 greenhouse gas emissions	82, 85
29(a)(vi)(1)	For Scope 3 greenhouse gas emissions, disclose the categories included within the entity's measure of Scope 3 greenhouse gas emissions, in accordance with the Scope 3 categories described in the <i>Greenhouse Gas Protocol Corporate Value Chain (Scope 3) Accounting and Reporting Standard (2011)</i>	83, 85
B40, B55	As part of disclosing information about the measurement approach, inputs and assumptions the entity uses to measure its Scope 3 greenhouse gas emissions:  Include information about the characteristics of the data and inputs as described in IFRS S2.B40 (e.g. data based on direct measurement)	83
B56(a)	To reflect how it prioritises Scope 3 data in accordance with the measurement framework set out in IFRS S2.B40-B54, disclose information that enables users of general purpose financial reports to understand the extent to which the entity's Scope 3 greenhouse gas emissions are measured using:  Inputs from specific activities within the entity's value chain; and	83, 85
B56(b)	Inputs that are verified	83, 85, 240-245

B57	IFRS S2 includes the presumption that Scope 3 greenhouse gas emissions can be estimated reliably using secondary data and industry averages. In those rare cases when an entity determines it is impracticable to estimate its Scope 3 greenhouse gas emissions, it discloses how it is managing its Scope 3 greenhouse gas emissions	82-83, 85
29(f)(i)	An explanation of whether and how the entity is applying a carbon price in decision-making (e.g. investment decisions, transfer pricing and scenario analysis)	78
29(g)(i)	A description of whether and how climate-related considerations are factored into executive remuneration	61, 83
32	Disclose industry-based metrics that are associated with one or more particular business models, activities or other common features that characterise participation in an industry. In determining the industry-based metrics that the entity discloses, refer to and consider the applicability of the industry-based metrics associated with disclosure topics described in the Industry-based Guidance on Implementing IFRS S2	82-83
33(a)	Disclose the quantitative and qualitative climate-related targets the entity has set to monitor progress towards achieving its strategic goals, and any targets it is required to meet by law or regulation, including any greenhouse gas emissions targets. For each target, disclose:  The metric used to set the target (see IFRS S2.B66–B67)	82-83
33(b)	The objective of the target (e.g. mitigation, adaptation or conformance with science-based initiatives)	81, 84
33(c)	The part of the entity to which the target applies (e.g. whether the target applies to the entity in its entirety or only a part of the entity, such as a specific business unit or specific geographical region)	82-83
33(d)	The period over which the target applies	77, 83-84
33(e)	The base period from which progress is measured	77, 83-84
33(f)	Any milestones and interim targets	77, 83-84
33(g)	If the target is quantitative, whether it is an absolute target or an intensity target	77, 83-84
33(h)	How the latest international agreement on climate change, including jurisdictional commitments that arise from that agreement, has informed the target	78
34(b)	The entity's processes for reviewing the target	138-139
34(c)	The metrics used to monitor progress towards reaching the target	83-85

35	Disclose information about the entity's performance against each climate-related target and an analysis of trends or changes in the entity's performance	83-85
36(a)	For each greenhouse gas emissions target disclosed in accordance with IFRS S2.33–35, disclose:  which greenhouse gases are covered by the target	82-83, 85
36(b)	Whether Scope 1, Scope 2 or Scope 3 greenhouse gas emissions are covered by the target	77, 83-84
36(c)	Whether the target is a gross greenhouse gas emissions target or net greenhouse gas emissions target. If the entity discloses a net greenhouse gas emissions target, separately disclose its associated gross greenhouse gas emissions target	85
36(e)(i)	The entity's planned use of carbon credits to offset greenhouse gas emissions to achieve any net greenhouse gas emissions target. In explaining its planned use of carbon credits disclose information including, and with reference to IFRS S2.B70–B71:  The extent to which, and how, achieving any net greenhouse gas emissions target relies on the use of carbon credits	81
